

What to Expect at Your Ortho Office

We want you to be prepared for what you might see at your next orthodontic appointment, as things begin to look a bit different.

Be prepared to be flexible!

You may not have the pick of appointment times as the number of patients is limited in the clinic at one time, which means less appointments per day. This is to help keep safe social distancing and a safe space for you.

Pre-screening

Be prepared to complete a COVID-19 screening, either written or verbal, prior to your appointment.

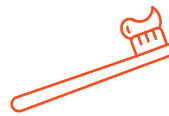

Please wear a mask!

Please wear a mask or face covering to your appointment. The staff in the office will also be wearing more gear than you normally see. Hand sanitizer will be used upon entrance and exit of the clinic.

Brush before you come!

Brushing stations are closed, and you will likely be asked to rinse with a safe, hydrogen peroxide oral rinse at the beginning of your appointment to clean your mouth of germs.

Your temperature will likely be taken before every appointment with a touchless thermometer!

The waiting room is no longer open for everyone.

You may be asked to wait in your car and called in when it's your turn or wait by yourself in the waiting room, spaced 2 metres apart. As well, there will be no games, toys or books...so plan accordingly. If a parent is allowed, they will also be subject to all screening measures.

Cash is likely no longer accepted!

Plan to pay by transfer or credit card for a touchless payment.

NOTE: Bathrooms will likely be closed to patient use, so plan accordingly.

REST ASSURED! Your orthodontist and their staff are putting everyone's health and safety first!
